

Strengthening Protected Area Financing and Management Systems Project aims at the establishment of a sustainable protected area financing system, with associated management structures, systems and capacities needed to ensure the effective use of generated revenues for priority biodiversity conservation needs as well as remove or significantly reduce a wide range of barriers to sustainable financing.

The project is seeking an Economist to prepare Financial Analyses for proposed concession projects in three of the Protected Areas . All mission details are available in the Terms of Reference (TOR). [Click here](#) to download the TOR.

The deadline for applying to this mission is

July 28th 2015
